

Note for SCILAB 5.3 Users

DAQ TOOLBOX has been recently ported to SCILAB 5.3 and renamed to NIDAQ.

There is an ATOMS package atoms.scilab.org/toolboxes/NIDAQ and the project is hosted on forge.scilab.org/index.php/p/nidaq.

Features

- usable under WINDOWS (32 or 64bit) only
- working NIDAQMX 9.4.x installation is needed (doesn't work with NIDAQMX BASE)
- subset of NIDAQMX C API is supported (corresponding to NIDAQMX 2.x C API)
- additional DAQ_SystemInfoAttribute function
